

THE PROGRESS

Utah State University Eastern Facilities

END OF THE FISCAL YEAR!

Highlight(s) of the
quarter - 2
Maintenance - 3
Grounds - 4
Custodial - 5
News/Extras - 6

Darren Broderick, Talon Jennings, Jim Ivie, Weston Broderick, Kyle Willis, Natalie Norton, Ashelynn Mele, Kirk Mascaro, Jefferson Wade, Bill Cranford, Trish Willson, Mike Hapsmith, Clint Maestas

As we come to the end of the fiscal year and start our 2019-2020 year, there have been some major changes and improvements throughout our department.

Over this past year we have completed multiple projects, gained new team members, lost a couple and improved in all departments.

WELCOME TO OUR TEAM!

Ashelynn Mele:
Inventory
Technician

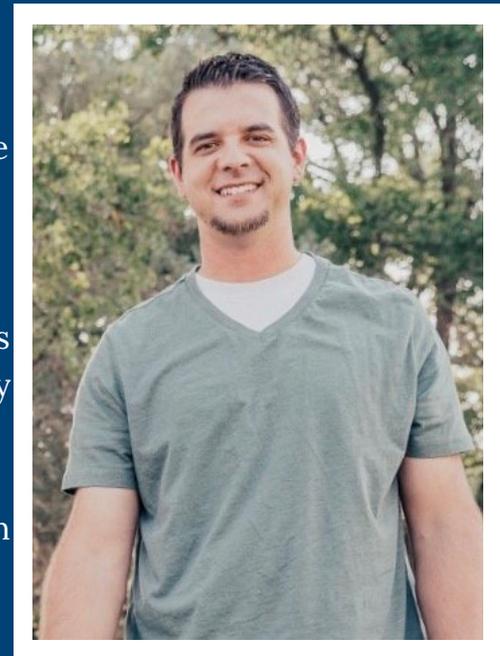

Talon Jennings:
Maintenance
Technician

HIGHLIGHTS OF THE QUARTER

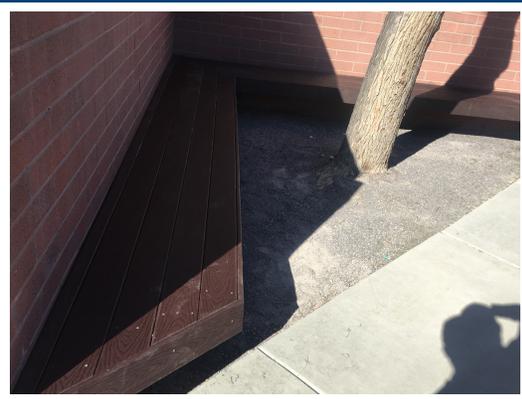

Eric Curwen has worked alongside of me, Kyle, since 2013 as a custodial/maintenance personnel in housing at Utah State University Eastern. Eric has always excelled at what he has done, and went above and beyond what was asked of him. Eric started full time with the university in 2015 for housing and in 2016 he became a maintenance technician with facilities. 2017 Eric was moved to a supervisor roll over the maintenance crew. Since then he has completed many projects throughout campus and helped to create a safe and updated campus. Eric completed the master's certification on fire alarms 6 months after beginning it (most take a year or more)! Before Eric, we always paid for contractors to install carpet throughout USUE campus, but Eric and his crew now take it on! This has helped to save in cost and to update much needed areas around our campus! There isn't enough space on this page to write about how great Eric has been to our department. He will be leaving a huge hole in facilities as he transitions on to his new role in housing. We wish the best of luck to Eric in this new adventure.

Logan Bullough has been with the University since spring of 2014. He started out in housing as a Hall Director and a part time employee as well for Kyle in housing maintenance. Since then he has done much to improve the University and better the relationships of people around him. Logan has helped to bring enjoyment to the Maintenance team and facilities as whole. We have appreciated Logan's willingness to go above and beyond many time throughout his career here at facilities and continues to offer the helping hand whenever needed. Logan has been very good at training new maintenance personnel and making sure they have what they needed to do the job. We wish Logan the best of luck in his future endeavors here at the University and in his new role as Environmental health and safety officer. We know he will do great things and we look forward to working with him in new capacities!

MAINTENANCE

The maintenance team has been very busy these last few months at many new projects to try and improve campus and it is only getting busier! Everything from LED lighting in various areas including new outside LEDs for housing and purchasing parking lot, timers to save on electricity, painting of areas, and numerous carpeting projects. One of the main areas seen that maintenance has redone is the JLSC. We have re-carpeted the upstairs and downstairs of that building and are now currently working on remodeling the JLSC bookstore for students and dining services. The maintenance team continues to work hard to improve the campus and I have appreciated their hard work even when down on numbers for staff. They are great at what they do and continue to add value to the campus and the department. Thanks to everyone who continues to support us and give help when needed!

On the left is a photo of the BDAC benches before the technicians redid them. On the right is how they look now.

The left shows the JLSC Bookstore before. The right photo shows the new and improved area!

The left photos show Kyle Willis accepting an award from the Fire Marshalls

GROUNDS

The heavy snows of winter and the spring rains did wonderful things for campus grounds this year. Coupled together with good fertilization practices and care, the lawns filled in nicely and greened up earlier this season.

Commencement went nicely, thanks to so many helping hands ! Fresh bark Was placed in shrub beds, and flowers were planted in various areas of campus providing a new display of color we had not seen before. So many did so much in such a short time to make this happen. (special thanks to all who participated)!

We have done some restructuring this spring in our department. We said goodbye to Shawn and Austin, transferred Weston from maintenance and brought in a very hard working and dedicated grounds crew for the summer. Compliments from across campus and the community continue to pour in.

(Good job guys)!

We have a huge new scoreboard on the Durrant fields thanks to generous donations provided locally. And several other projects around campus have been done which will add greatly to her beauty with still more to come.

Excited for the summer!

CUSTODIAL

The custodial crew has been working hard on waxing the floors at the MCC. These photos show how great they look!

Announcement

If we can go 6 months without any accidents, we will do a lunch-in here at facilities!

EXPECTING FATHERS

Kyle Willis

Due: Novemeber 2019

Logan Bullough

Due: December 2019

Eric Curwen

Due: January 2020

GRADUATES

Darren Broderick

Associate of Science

Natalie Norton

Bachelors in Social Work

YEARS OF SERVICE

Natalie Norton

1 Year

(04/2017)

UPCOMING BIRTHDAYS

Mike Hapsmith (07/04)

Talon Jennings (08/25)

Darren Broderick (09/09)

Ashelynn Mele (09/23)

Jim Ivie (09/29)

Weston Broderick (09/30)

It's your birthday!

OSHA Recordable Injuries

April - June 2019

GOAL : 0

2 accidents were reported to OSHA in the last 3 months within facilities

Statistics on safety

- 43 fatal accidents in the workplace in 2018
- Carbon County had just under 20 vehicle related fatalities in 2018
- Put your cell phone away when driving

Contact Logan Bullough with any questions : logan.bullough@usu.edu

Events coming to Carbon/Emery

- **Huntington Heritage Days Rodeo**
 - June 28th & 29th
- **International Days**
 - July 25th - 27th 2019
- **Granger Smith** is coming to the Emery County Aquatic Center
 - August 3rd 2019
