

Fossil Fest 2025

11/13/2025

Fossil Fest returns to the Prehistoric Museum November 15!

This year we are featuring one of our favorite dinosaurs, *Gastonia*. Not only was this armored dinosaur excavated by our museum, but it also starred in episode 3 of the international documentary *Walking With Dinosaurs*!

This year's Fossil Fest includes:

- Free admission to the Prehistoric Museum all day (9am - 7pm)
- Museum collections tours (10am & 1pm)**
- Activities/crafts for all ages in the museum exhibit gallery (11am - 2pm)
- Up-close looks at the stars of *Walking With Dinosaurs*: *Gastonia* (11am - 2pm)
- *Walking With Dinosaurs* documentary on loop in the Prehistoric Museum classroom (11am - 2pm)

**Collections tours will be restricted to the first 10 people that show up. If more than that 10 folks are interested in a given time slot, we will run a second tour one hour later (11 am and 2 pm). To attend the collections tour, meet on the west side of the West Instruction Building (WIB) on the USU Eastern campus, located [here](#). WIB is located at the corner of 100 E and 500 N, and we will meet across from Pioneer Park on the west side of the building
